

# Half Marathon Start Line Up Guide

It is in the best interest of everyone to have a safe and uniform start. Please estimate your minute per mile pace and line up in the correct pace group. Minute-per-mile signs will be hanging from posts along the left side of the course. Please "corral" yourself in the appropriate area.

To better serve your pre-race elimination needs we have added an additional 20 porta-potties, located at the top of Sleep Hollow road. If you plan to run 10 mins. per mile or slower, or you are a walker, please use these facilities. You won't miss anything by hanging back from the start line. Our DJ has added more speakers so all can here announcements and the "Runner take your mark" call. And as always, electronic scoring means you needn't be concerned about how long it takes you to cross the Start Mat.
